

Worldwide adapter saves energy and reduces OEMs' inventory....

PHIHONG DEVELOPS INTERCHANGEABLE PLUG ADAPTER WITH MICRO-USB OUTPUT CONNECTOR

FREMONT, Calif. (August 20, 2008) - Phihong USA, the global leader in power solutions, has expanded its adapter offering with an 8W version featuring interchangeable input plugs and a micro-USB output connector. Designated the PSM08R-050(M)-R, the 8W adapter is available

with four interchangeable clip adapter plugs, sold separately, for use in virtually any power outlet around the world. The worldwide compatibility allows a single part number to be used, simplifying inventory and approvals.

"Our interchangeable AC input blades make the adapter an ideal choice for mobile, portable and wireless communication applications," said Keith Hopwood, vice president of marketing for Phihong USA. "Plus, OEMs find the interchangeable plug adapters a cost-efficient solution for product designs that they want to ship worldwide."

The interchangeable AC power plugs allow OEMs to ship the same product anywhere in the world without requiring the cost of keeping inventory of different country-specific adapters to meet different current requirements.
